Announcements

New Funding Opportunities Newsletter

With this email, Research Development Services has launched a new and improved Funding Opportunities Newsletter, which will now come weekly to your UO email address. This version of the newsletter organizes grant opportunities under new headers: Internal Grants, Limited/Internally Coordinated Submissions, and Featured External Grant Opportunities. It also retains headers for Announcements and Honors & Awards. All opportunities are now listed alphabetically and then by date, rather than into broad disciplinary categories. However, you can search for opportunities in these broad categories using Curated Pivot Search links, located at the end of the newsletter. You can also use the free text Pivot search feature, embedded in each newsletter, to find funding opportunities that meet your specific needs. We hope that you will encourage students and staff to [subscribe](#) to this newsletter.
